WHO WE ARE

About SR Innovation

Building safer, smarter and more secure environments.

SR Innovation Chandigarh is a security equipment, surveillance and BDDS equipment company dedicated to providing modern protection solutions for **residential, commercial, industrial and institutional** sectors.

The company focuses on security systems and surveillance technologies designed to support safety, monitoring and operational security.

**12+**

Product categories

4

Sectors served

1

Partner for every requirement

**Security**

Equipment and systems supporting security screening, protection and controlled environments.

**Surveillance**

CCTV, monitoring and related technologies for visibility across different premises.

**Safety**

Road, workplace, fire and other safety-oriented products for relevant applications.

**Customer Focus**

A requirement-focused approach to help customers identify suitable product categories.

WHAT WE OFFER

Our Product Portfolio

A broad range of security, detection and safety equipment — all from one trusted source.

01

Metal Detectors

Walk-through and handheld detection solutions for security screening.

[Page 05 →](#)

02

Security Equipment

CCTV, access control, monitoring, alarms and other security products.

[Page 06 →](#)

03

CCTV & Surveillance

Cameras, recording and monitoring solutions.

[Page 07 →](#)

04

Baggage Scanners

Security screening equipment for baggage and package inspection.

[Page 08 →](#)

05

Access & Biometric

Access control and attendance-management equipment.

[Page 09 →](#)

06

Road Safety

Traffic and roadside products supporting visibility, control and safety.

[Page 10 →](#)

07

Treasure Detectors

Specialized detection equipment for field and search applications.

[Page 11 →](#)

08

Gold Detectors

Specialized equipment for gold and metallic target detection applications.

[Page 12 →](#)

09

BDDS Equipment

Specialized security equipment for authorized professional applications.

[Page 13 →](#)

10

Fire & Safety

Fire safety and workplace-oriented safety products.

[Page 14 →](#)

11

Alarm & Monitoring

Security alarms and monitoring-related equipment.

[Page 15 →](#)

12

Solar Panels

Solar-energy products included in the stated broader range.

[On request](#)

ONE PARTNER · EVERY LAYER

Complete Security Ecosystem

Detect. Monitor. Control. Screen. Protect. Respond.

One catalogue for multiple security requirements — covering **detection, surveillance, access management, safety** and specialized equipment.

DETECTION

Metal Detectors

Advanced detection for effective security screening.

Metal Detectors

Reliable detection for a safer and more secure environment.

-  High Accuracy
-  Fast Detection
-  Durable Design
-  Suitable for Multiple Environments

Airports

Government Institutions

Schools & Colleges

Industrial Premises

Events & Public Places

Metal detection equipment can support security screening and inspection requirements at entry points and controlled environments.

— KEY FEATURES

- ✓ High detection sensitivity
- ✓ User-friendly operation
- ✓ Durable construction
- ✓ Multiple applications
- ✓ Security-focused design

— APPLICATIONS

- Security checkpoints
- Institutions
- Commercial premises
- Public venues
- Workplace entry points

SECURITY

Security Equipment

Modern equipment for comprehensive protection.

Complete Range of

Security Equipments

Advanced security solutions to protect people, property and information.

Reliable Protection

Advanced Technology

Complete Solutions

Expert Support

CCTV & Surveillance

Baggage Scanners

Access Control

Biometric Attendance

Alarm Systems

Fire Safety

Monitoring Solutions

Solar Panels

SR Innovation provides a broad security equipment range covering surveillance, screening, access management, alarms and monitoring requirements.

KEY FEATURES

- ✓ Wide product range
- ✓ Modern security technology
- ✓ Integrated equipment categories
- ✓ Suitable for varied premises
- ✓ Requirement-focused selection

APPLICATIONS

- Offices
- Commercial premises
- Industrial sites
- Institutions
- Residential environments

SURVEILLANCE

CCTV & Surveillance

Monitor. Detect. Respond.

CCTV and surveillance systems can support continuous visibility and monitoring across homes, businesses, institutions and other premises.

KEY FEATURES

- ✓ Camera-based monitoring
- ✓ Recording systems
- ✓ Indoor and outdoor applications
- ✓ Centralized visibility
- ✓ Scalable configurations

APPLICATIONS

- Homes
- Offices
- Retail
- Factories
- Warehouses
- Institutions

SCREENING

Baggage Scanners

Advanced screening for security inspection.

Baggage scanning equipment is designed for inspection of baggage and packages in appropriate security-screening environments.

KEY FEATURES

- ✓ Screening-focused design
- ✓ Conveyor-based inspection
- ✓ Security checkpoint use
- ✓ Operational efficiency
- ✓ Professional environments

APPLICATIONS

- Security checkpoints
- Institutions
- Transport facilities
- Commercial premises
- Controlled-entry locations

ACCESS CONTROL

Access Control & Biometric

Controlled entry and attendance management.

Access-control and biometric systems support controlled entry, identity verification and attendance management for organizations and workplaces.

KEY FEATURES

- ✓ Controlled access
- ✓ Biometric authentication
- ✓ Attendance management
- ✓ Restricted-area support
- ✓ Multiple access methods

APPLICATIONS

- Offices
- Institutions
- Industrial sites
- Commercial buildings
- Restricted areas

ROAD SAFETY

Road Safety Equipment

Solutions for safer roads and controlled traffic.

SAFER ROADS SAFER COMMUNITIES

Road Safety

Complete range of road safety products for better traffic management, accident prevention and safer roads.

- High Durability
- High Visibility
- Easy Installation
- Suitable for All Environments

Traffic Cones
 Speed Breakers
 Road Barriers
 Road Studs
 Convex Mirrors
 Safety Signages
 Bollards
 Solar Safety Lights

Road safety products can support visibility, traffic management and safer movement across roads, parking areas and operational environments.

KEY FEATURES

- ✓ High visibility
- ✓ Durable construction
- ✓ Traffic-management support
- ✓ Weather-resistant options
- ✓ Multiple roadside applications

APPLICATIONS

- Roads
- Parking areas
- Construction zones
- Industrial premises
- Traffic-management areas

FIELD DETECTION

Treasure Detectors

Specialized detection equipment for field applications.

DISCOVER THE HIDDEN WORLD

Treasure Detectors

Advanced treasure detection equipment for finding valuable metals, coins, artifacts and hidden treasures.

- High Accuracy
- Deep Detection
- Advanced Technology
- Find Valuable Treasures

Coin Hunting | Hidden Treasures | Archaeological Search | Gold & Precious Metals | Historical Artifacts | Beach & Underwater | Land & Field Survey | Professional Equipment

Treasure detectors are specialized detection devices intended for locating metallic objects in appropriate field and search environments.

KEY FEATURES

- ✓ Portable designs
- ✓ Field-oriented operation
- ✓ Detection-focused technology
- ✓ Multiple search environments
- ✓ Accessory compatibility

APPLICATIONS

- Field searches
- Coin hunting
- Historical research
- Beach searches
- Land survey applications

FIELD DETECTION

Gold Detectors

Specialized detection equipment for gold and metallic targets.

FIND MORE THAN METALS

Gold Detectors

High-performance gold detectors for professional and hobby treasure hunters.

High Sensitivity

Accurate Detection

Advanced Technology

Find Gold & Minerals

Gold Prospecting

Advanced Detection Modes

Professional & Hobby Use

Gold Nuggets Detection

Deep Search Capability

High Precision Results

Multiple Terrain Support

Complete Accessories

Gold detection equipment is intended for specialized applications involving gold and other metallic targets. Selection should be based on the intended use and operating conditions.

KEY FEATURES

- ✓ High sensitivity options
- ✓ Target detection
- ✓ Advanced control systems
- ✓ Field applications
- ✓ Professional equipment options

APPLICATIONS

- Gold prospecting
- Field search
- Mineral detection
- Specialized detection
- Outdoor applications

PROFESSIONAL SECURITY

BDDS Equipment

Specialized equipment for professional security applications.

ADVANCED TECHNOLOGY FOR A SAFER TOMORROW

BDDS Equipments

Trusted Bomb Detection & Disposal Solutions for a Safer and Secure World.

High Safety

Advanced Technology

Quick Response

Trusted by Security Forces

EOD Robots

Bomb Disposal Suits

Explosive Detectors

X-Ray Inspection Systems

Communication Jammers

EOD Tools

Fiber Optic Inspection Systems

Explosive Trace Detection (ETD)

BDDS is a specialized category associated with bomb detection and disposal-related security requirements. **Equipment should be handled only by authorized and trained professionals.**

KEY FEATURES

- ✓ Specialized security equipment
- ✓ Professional inspection tools
- ✓ Controlled-use systems
- ✓ Portable equipment options
- ✓ Security-focused design

APPLICATIONS

- Authorized security operations
- Professional inspection
- Specialized screening
- Controlled environments

SAFETY

Workplace Safety Solutions

Equipment supporting safer work environments.

Workplace safety equipment can support personal protection, emergency preparedness and safer operational environments.

KEY FEATURES

- ✓ Personal protection
- ✓ Workplace safety
- ✓ Emergency preparedness
- ✓ Safety awareness
- ✓ Industrial applications

APPLICATIONS

- Factories
- Warehouses
- Construction
- Industrial facilities
- Workplaces

SECTOR SOLUTIONS

Residential Security

Protect what matters most.

Residential security solutions can combine surveillance, access control, alarms and monitoring to support protection of homes and residential premises.

KEY FEATURES

- ✓ Smart monitoring
- ✓ Access control
- ✓ Remote visibility
- ✓ Alarm support
- ✓ Home surveillance

APPLICATIONS

- Homes
- Villas
- Apartments
- Gated communities
- Residential premises

SECTOR SOLUTIONS

Commercial Security Solutions

Security systems for modern business premises.

Commercial environments can benefit from integrated surveillance, controlled access and monitoring solutions designed around business operations.

— KEY FEATURES

- ✓ Complete protection
- ✓ Monitoring
- ✓ Scalable solutions
- ✓ Controlled entry
- ✓ Professional security infrastructure

— APPLICATIONS

- Offices
- Retail
- Hotels
- Warehouses
- Commercial buildings
- Business premises

SECTOR SOLUTIONS

Industrial Security Solutions

Built for demanding industrial environments.

BUILT FOR TOUGH ENVIRONMENTS

Industrial Security Solutions

Robust security systems designed for factories, plants, warehouses and industrial infrastructure.

- Perimeter Security
- 24/7 Monitoring
- Industrial Grade Solutions
- Reliable & Scalable Systems

Industrial security solutions can support perimeter monitoring, access management, surveillance and operational security across large facilities.

KEY FEATURES

- ✓ Perimeter security
- ✓ 24/7 monitoring
- ✓ Industrial-grade options
- ✓ Reliable systems
- ✓ Scalable infrastructure

APPLICATIONS

- Factories
- Plants
- Warehouses
- Logistics facilities
- Industrial infrastructure

14

SECTOR SOLUTIONS

Institutional Security Solutions

Security for campuses, healthcare and public institutions.

SAFE CAMPUSES SECURE FUTURES

Institutional Security Solutions

Comprehensive security systems for schools, colleges, hospitals, government buildings and other institutional facilities.

- Safe Campuses
- Student Safety
- Access Management
- 24/7 Monitoring

Schools Colleges & Universities Hospitals & Healthcare Institutions Government Buildings Training & Research Centers Other Institutional Facilities

Institutional security solutions can combine surveillance, access control, screening and monitoring across campuses and organizational facilities.

KEY FEATURES

- ✓ Safe campus support
- ✓ Student and visitor safety
- ✓ Access management
- ✓ 24/7 monitoring
- ✓ Integrated security categories

APPLICATIONS

- Schools
- Colleges
- Universities
- Hospitals
- Government buildings
- Research centers

WHY CHOOSE US

Why SR Innovation?

A requirement-focused approach to security and safety equipment.

01

Wide Product Range

Multiple categories covering detection, surveillance, screening and safety requirements.

02

Modern Technology

A product portfolio focused on contemporary security and surveillance technologies.

03

Multiple Applications

Solutions for residential, commercial, industrial and institutional environments.

04

Customer-Focused

Understanding the intended application before identifying relevant equipment categories.

05

Security & Safety Focus

A portfolio centered on protection, monitoring, detection and safety.

06

Chandigarh Based

SR Innovation operates from SCO 72, Sector 31-C, Chandigarh.

OUR COMMITMENT

By combining advanced technology, trusted products and customer-focused support, SR Innovation aims to contribute to safer, smarter and more secure environments.
